MEMORANDUM FOR: Chief, Arms Control Intelligence Staff
FROM: Director of Central Intelligence
SUBJECT: GAC Briefing

Some of the members of the GAC will have seen this Heritage report on Soviet violations of arms agreements. I should say in my statement that they will hear a talk about Soviet violations. In that context discuss how these have been handled in the past with reference to specific allegations which have been circulating as listed in small print on page 2 of this report. Give me some language with which to develop that and as backup a short note on the substance of each type of alleged violations, etc.
